OAKWOOD ACADEMY

Oakwood Academy is a privately owned high school located in Borrowdale, Harare. At Oakwood, our mantra is “INNOVATE TO EDUCATE”, we harness innovations in technology, thinking and processes and apply these to education in Zimbabwe.

Specifically, our philosophy is to relentlessly focus on the key factors that matter in education and fully integrate best practice teaching methods into all learning.

We believe that the mind is plastic, and therefore cognitive ability can be developed throughout an individual’s life. We accept that skills and methods that ensure effective learning are known and well researched, and that effective learning depends on the complete integration of these skills and methods into classroom practice.

Our mission is to mentor our learners for life, allowing each individual to excel and expand their potential, stepping onto the path of individual success, prosperity and achievement. We do this by providing knowledge, education and learning of the most excellent and relevant standard. Our motto, “Modo Scientia Lumine”, meaning “Knowledge Lights the Way”, is the clearest distillation of the mission, vision and value system of Oakwood Academy.

Oakwood’s pedagogical approach lends itself well to the effective delivery of the OSSD curriculum. The Academy’s staff are well versed with the teaching approaches used in the delivery of international programmes and are equipped with the skills needed to teach face-to-face and in a virtual environment. The establishment of the OSSD programme at Oakwood will complement the Academy’s existing international education offering.
